

Es BOWLING

Cob Ripeness*		Distinctive large cob with 14 grains per ring. 65% of total dry matter yield comes from the cob which has very early maturity driven by rapid grain dry down.
Maturity Group*		Very early maturity led by good early grain maturity.
Quality	ME  11.4 STARCH  36%	Very high combined yield of quality in trials. Very high starch and the highest ME available.
Plant Description*	HEIGHT  2.0m STAY GREEN	Good standing with broad strong green prostate leaves on a shorter plant. Sow 40,000 seeds per acre (99,000 per hectare).
Yield		Very good combination of yield, quality and maturity.

*** Maizetech Trials**

Stay Green - The ability of the plant to photosynthesis to harvest (1 = low, 10 = good)

Maturity - Ability to reach harvest (1 = slow, 10 = fast)

Cob Ripeness - Measurement of true grain maturity at harvest (1 = low, 10 = high)

Es BOWLING

Es BOWLING Ultra Early – Specialist High Quality

- ✓ Very Early Maturity.
- ✓ Above average yield of cob – 65%.
- ✓ Very high starch level recorded.
- ✓ Very highest ME recorded.
- ✓ Good standing – short plant.
- ✓ Very high quality driving performance.
